Objective

A motivated B.Tech 3rd-year student with a strong foundation in programming languages such as Java, Python, C, HTML, and CSS. Experienced in creating web-based projects like a Netflix clone and a login page. Currently working on an airplane management system. Familiar with SQL and API keys. Eager to apply my skills in software development and contribute to innovative projects.

Education

B.Tech in Computer Science
Invertis University (2022-2026)
Expected Graduation: 2026

Intermediate (Class 12)
CBSE, 2022

High School (Class 10)
CBSE, 2020

Skills

- **Programming Languages:** Java, Python, C, HTML, CSS
- **Web Development:** Front-end development, Responsive design
- **Database Management:** MySQL
- **API Management:** API keys and integration

Projects

Netflix Clone

- Developed a web-based clone of Netflix with a focus on front-end design using HTML, CSS, and JavaScript.
- Implemented user authentication and media browsing features.

Login Page

- Created a responsive login page with input validation using HTML, CSS, and JavaScript.
- Designed a user-friendly interface with secure login mechanisms.

Airplane Management System (In Progress)

- Currently working on a system to manage airplane schedules, bookings, and maintenance using Java and Python.

- Aims to enhance operational efficiency in the aviation industry.

Certifications

- TCS iON Career Edge - Young Professional
- Data Analytics and Visualization Job Simulation by Accenture
- Prompt Engineering for chatGPT by Great Learning Academy

Hobbies/Interests

- Traveling

- Online Gaming
